

Candle Safety

09

An open flame can ignite nearby materials in seconds.

FIRE SAFETY TIPS

- 1 Use sturdy candle holders that will not tip over easily.
- 2 Keep candles at least 12 inches away from curtains, decorations, bedding, paper, and anything else that can burn.
- 3 Blow out candles before leaving a room or going to sleep.
- 4 Keep candles, matches, and lighters away from children and pets.
- 5 Consider battery-operated flameless candles when an open flame is not necessary.

REMEMBER

Never leave a burning candle unattended.
